2.	A mobile radio station with a braced mast 8 to 10 meters high was in the northeastern corner of the field. Only the administration buildings of the former Otto Mader Plant, south of the field, were reconstructed. The airfield personnel were quartered there.					
25X1A (1)	stationed at to	vations indicate the airfield. eventional fighte	urs have been	observed at	the field	Α
25X1A	since August 1950; a maximum of seven planes was seen in late August 1950 The number of jet planes simil- teneously stationed at the field did not exceed 2h. This fact may indicate that the transfer of conventional fighters was conducted more rapidly than jet fighters could be delivered, and that the shortage of jet planes has now been filled. Since source reported for the first time, it remains to be seen whether the large number of jet aircraft reported is correct.
